

2024 SEASONAL AVERAGE PRICE PROGRAM 2024

2024 - DECEMBER CORN & NOVEMBER BEANS WEEKLY AVERAGE PRICE

- No fees for weekly average price if made into a flat price contract by the end of the pricing period.
- Corn (CZ24) 5,000-bushel increments.
- Beans (SX24) 1,000-bushel increments (have to be 5,000 bushels for HTAs).
- Equal quantity priced every Wednesday April 17th-July 17th.
- .05/bushel HTA fee for all weekly avg price to Hedge-to-Arrive contracts.

2025 - DECEMBER CORN FUTURES WEEKLY AVERAGE PRICE

- .01 fee if made into a flat price contract by the end of the pricing period.
 - Additional .10/bushel fee if made into HTA contract (\$.11 total).
- Corn only (CZ25) 5,000-bushel increments.
- Equal quantity priced every Wednesday April 17th-July 17th.

2024 - DAILY AVERAGE PRICE - CUSTOMIZABLE PROGRAM

- .01 fee for daily average price contracts.
- Customizable pricing periods and quantities (5,000 bushel minimum).
 - Additional .05/bushel fee if made into HTA contract (\$.06 total).
 - 5,000-bushel increments for HTAs.

New Crop futures prices indexed over the past 5, 10, and 20 year averages.
The Seasonal Average Price contract is pricing grain when the crop traditionally has the most uncertainty.
